

Moth World Championship e Pre Worlds - Italian Series

Equipment Substitution Request

Received: 2021-09-04 02:00 CEST

Request No: 01

Boat: Moth - 4763 - Philipp Buhl

Request:

Old Equipment:

New Equipment:

Second sail

Reason:

I kindly request no equipment substitution but to get a measurement sticker for my second sail. Until now, I have only 1 sail being measured.

On sept 1st when I checked in all my equipment for the moth worlds, I asked permission to check in my second sail later, as I didn't receive my measurement certificate for my second sail until that day.

I now received the certificate for the sail and added the sail to the online system. Unfortunately I cannot simply add the sail in online system (measurement.moth-sailing.org) to the moth worlds regatta myself.

I kindly request to allow me to get that second sail into the system and a measurement sticker on my sail to be able to use it.

Thank you in advance.

Philipp

Response: Approved

Yes, as long the measurer checks it (Luigi Cuccotti).
