Boat: Platu 25 - Greece

Request:

Old Equipment:

To the S. I. Addendum B 2.20

For working the main sheet on downwind

From the upper blocks instead of the cockpit

Floor? And also when we are jibing if we can attach the main sheet all the sheets?

Thank you

Response: Approved

The question was referred to the international jury.

SI Addendum B 2.20 applies only after the starting signal was made and while a boat is sailing close hauled for more than a few seconds.

It does not restrict how the boom position shall be controlled when a boat is sailing downwind or while gybing.
