

43 Copa del Rey MAPFRE - ORC European Championship

Equipment Substitution Request

Received: 2025-07-25 16:48 CEST

Request No: 02

Boat: ORC - B - GBR 234 - Saiola X - Yves de Block

Request:

Old Equipment:

New Equipment:

Main, J1, J2, J3, J4, S1.5, S2, S2, S3

Reason:

In the past we used to sail with the largest sails filed in the orc sail inventory. This year some new sails were bought. Also the old sails were re-measured to have their actual size filled for racing. We assumed that all sails were of equal size and the new sails were the same size or smaller than the previous sails.

In the light of the request to file all sails in the sail inventory we noticed that the genua and kite were slightly larger than previously. The main is slightly smaller. As a result our rating got slightly worse.

Today we requested Rafael Bonilla Paz from the Spanish federation to file these changes in a new ORC certificate. However he asked us to contact you first and ask for permission to change our equipment. Which it not really is. We have simply listed all our sails. We hope for your understanding and apologise for our late submission of our sail inventory.

Response: Approved

Please explain the situation when you attend to the Technical Inspection with the Technical Committee.
