Reason:

We have an injured crew member from yesterdays race, we notified the jury and race committee we had to drop him off the boat before the race started.

He is missing a bit of his finger, had to go to the hospital.

He is too badly wounded to be able to race today. Having not found the appropriate link to declare a missing crew member, I notify you here.

We will be starting with 13 crews instead of 14 today, missing member is Tim Carpentier.

Thank you
