Notice:

2025 Moth Worlds – GOLD FLEET ONLY

INSTRUCTIONS FOR THE PROPER USE OF "METASAIL" TRACKING DEVICES

We will be using live tracking for all Gold fleet racing. We have partnered with Metasail to provide trackers to each competitor. Here is the process to pick up, place and return your tracker unit.

1. When the 60 boat GOLD Fleet competitors have been confirmed after the Qualification series, each GOLD Fleet sailor can pick up their Tracker from reception between 09.00 and 10.00 on Saturday 12th July.
2. Each device is associated to a specific Gold fleet sailor and thus assigned to them prior to being collected. It is therefore important not to exchange them between participants or forget them ashore.
3. All devices are waterproof and already fully charged and ready to use. They will be switched on and off automatically remotely for the Gold fleet racing. **NO ACTION IS REQUIRED BY ANY SAILOR TO ACTIVATE THE UNIT, SO PLEASE RESIST THE TEMPTATION TO PRESS THE RED BUTTON!**
4. **IMPORTANT!** The device must be secured to the boat through its dedicated rope OR IT CAN BE SIMPLY PLACED IN YOUR LIFE JACKET.
5. The devices are sufficiently charged for the entire event, so no recharging is necessary. If we have any issue with your tracker, we will advise the Race Officer and he

will make contact with the individual sailor as required.

6. Returning your tracker – Please return your tracker to reception after racing on Sunday 13th July. The device should be returned rinsed with fresh water and cleaned as it was received (without traces of adhesive tape)

Watching the tracking

Watching the Live tracking – The link will be posted tomorrow morning.
