Hearing requests

Notice:

We were asked by a coach today how they could see hearing requests for their competitors.

I could find no access on the RRS website.

The registered email address of the competitor is notified of hearings against them, and there should be a link for the competitor to access.

Coaches, parents etc can use the feature on RRS of following a competitor. On the opening page.

This, I believe, gives them the same notifications as the competitor receives.

Please inform your coach or parent.
