## Notice:

Day 4 Competitor's Briefing

Forecasts for today all suggest higher wind pressures than yesterday. There is a **strong possibility we will see winds** restricting the use of spinnakers, and competitors are reminded of SI 11.5, 'When Code Flag ''W'' is displayed with a sound before the warning signal, spinnakers shall not be hoisted during that race.''

The OA has requested that if Code Flag W is flown when racing is finished for the day, competitors not fly spinnakers on the return to harbour.

Further, one of the six forecast models contains sustained winds and gusts close to the level where all racing would have to be abandoned for the day.

With the forecast direction, the RC will be anchoring close to Wednesday's location SW of Pearl Island.
