Description

We were the most leeward boat on the downwind, 6 boatlengths from the downwind mark, we were at least 1 boat length ahead. We stayed on purpose on the same leg to not overlap with them. After we entered the 3 boat length we made sure to make clearly that we were not overlapped. Then we gybed in the 3 boat length and wanted to round the leeward mark. We couldn't round it properly, because they thought they have right of way and they didn't give us space to round and broke rule 11. To prevent a crash, we headed full down and lost 2 places.

The Boat SUI 57507 was between until the 3 boat length, then we passed them clearly. The Boat SUI 57507 has seen the foul from SUI 57318 and also had to change their course to not crash with the SUI 57318. The SUI 57507 has seen the whole incident and are our witnesses.
