Question For: Race Committee

Question:

Good Morning, my question is in regards to IRC checks. The cape 31 shotgun, have 2 boats one based in the Mediterranean and one based in the UK/ Ireland. We have been told that they are sailing with the IRC certificate from the boat in the UK/ Ireland and the certificate is not for the boat they're using here. Can this be checked? Do we have to submit a protest or will the IRC team check and protest shotgun if this is true?

Thanks
