

# J/70 European Championship 2025

## Question for Officials

**Date: 2025-08-24**

---

**Question No: 01**

**Question For: Technical Committee**

**Question:**

The technical comedy. Greetings from Istanbul. Unfortunately we ask your permission to extend our sail declaration and measurement timetable to Monday 1600. Even though I have both arrived Sweden on Thursday and all of our sails arrived from USA on Thursday other than the asymmetric which was due to arrive on Friday to Istanbul so that I can bring it with me to Sweden, due to some logistical problems it will arrive tonight at 23:00 to Istanbul so I will go and pick it up and I change my flight from Saturday to Monday morning to fly to Sweden with the asymmetric. Due to the fact that one of the sails which is very important for us will arrive tonight in Istanbul I had to change my flight to Monday morning and I should be at Sanhamn 14:00 tomorrow o'clock in the afternoon. Due to this unexpected incident, we will not be able to attend the deadline for measuring sails which is 1600 today. I request your leniency and tolerance and accept our request to move the measurement of ourselves to Monday at 16:00 please.
