

2025 Formula Wing Asians

Question for Officials

Date: 2025-10-12

Question No: 01

Question For: Technical Committee

Question:

During R8, at 15hr 01min 33sec, Sailor 11 crossed the finish line during his 1st lap. It was wrongly counted as his finish at position 10.

He actually kept sailing upwind to mark 1, and finally failed to finish the race within the race time limit.

I was ahead of him all the time during this race, it's impossible for him to be in position 10.

The technical committee must have wrongly counted sailor 11 as finish, when he was actually in his 1st lap.

Please kindly review the tracking and redress the Sailor 11's score as necessary

Answer:

Tracking reviewed, scoring corrected.
