

2026 ORC World Championship

Question for Officials

Date: 2026-05-06

Question No: 05

Question For: Technical Committee

Question:

Dear Technical Committee,

Further to our request and your approval under NoR 15, we would like to inform you that the approved works at Alyena Shipyard are expected to be completed today.

The boat is expected to be splashed back into the water on Thursday, 7 May, early in the morning. We have also booked a measurement check appointment in Sorrento at 14:00.

As the boat underwent structural repairs, we kindly ask for your advice on whether any ORC checks / updates are required under the applicable rules.

Our goal is to ensure that the boat is fully compliant before racing.

Thank you for your guidance.

Kind regards,
Timofey Zubkov
On behalf of the Person in Charge, Evgenii Tiapkin

Answer:

Dear Timofey

Did you change anything substantial in terms of weight of the boat? Mainly reducing the weight? If not, no further action is needed and you can proceed with pre-race inspection as scheduled
