Date: 2021-07-27

Question No: 03

Question For: Race Committee

Question:

I consider that what has happened on the race today has been a ridiculous actuation by the race committee. In fact the biggest ridiculous I have ever seen on an international race.

My questions are :

1. Have you previously tested these new buoying system before using in this race.
2. Why you have not tried to make a second race during the afternoon. At 15:00 hours the wind conditions were excellent to make a race. Specially when after two days no race is completed.

Looking forward for the answers
