

Cascais SB20 World Championship

Question for Officials

Date: 2021-08-30

Question No: 01

Question For: Protest Committee

Question:

Please can the International Jury publish the the call book that they will be using at this event. The change to full fleet race umpiring was made very late after the practice race which means as competitors we will not have any experience of this system before starting the first race of a world championship.

Answer:

The publishing of the Call Book is governed by World Sailing Regulation 28, which states that calls are authoritative only for the discipline they are published. For example, team racing calls are only authoritative for team racing. In cases where the rules are the same, we may rely upon an interpretation in a match or team racing call.
