## 7. Description Of Incident

8688 rounded the mark onto a high angle/low beam reach. I headed down in between 8688 and the mark where there was ample space for me to go between them and the mark to set my spinnaker. I kept my angle after heading down to my set angle where after 8688 headed down and slammed into my starboard side. I was the leeward boat and they headed down into me (Rule 11). They also claiming they had rights and did not give me the time to avoid them by heading down and they then slammed into the side of my boat (Rule 14). After the contact my crew yelled protest 8688. We then spun because we also did not avoid contact
