7. Description Of Incident

The upwind mark most of the fleet started to round was not looking like as described in the SI : it was Mostly Green, like mark 2, instead of red.

A red mark similar to those used previously was located 200m up and i was aiming that one. As i saw most of the fleet Rounding the fake mark i started to reach and started to follow the fleet as all the boat who were starboard to me. The lost distance was quite huge and due to the fake mark i finished at a place that doesn't reflect my ability in that race. I m asking for a redress.

During the following race, the « good » upwind mark was used again but was attached to a support boat which explain why the mark hadn't been used before.

I think race 5 was unfair.
