## 7. Description Of Incident

Both boats were sailing upwind on starboard tack, 626 a bit more downwind but slightly ahead. They tacked to port, we saw them after they finished the maneuver, managed to yell "starboard" and tried to avoid the collision. Regardless, they continued sailing and failed to give us way and avoid the collision. We collided at near right angle regardless and we also capsized. The result is damaged side of the boat, with hull visibly taking on water we decided to head home.

## 8. Damage Or Injury

Damaged "lip" about mid-boat, when lip gets submerged lots of bubbles arise.
