7. Description Of Incident

8521 has no overlap, we call no room at them but they try to get in. The front of their boat went in between our hull and rudder, pushing us into the boat in front. We had no steerage so couldn't do anything and started to heel to leeward and they were pushing us off of them trying to get out, which ended up capsizing and then turtling us. They then sailed off and we didn't see them do turns
