Other Comment:

7. Description Of Incident

Preparing to round the downwind right gate, was auto gybed by a puff at 3 lengths out, inside boat on 4173 and 2793. 4173 is outside boat but ahead and sails away cleanly. 4113 is behind with no overlaps. 4113 enters overlap late (less than one length to mark for me) between 2793 and 3251 and does not provide 3251 enough room to gybe back to round. A 3 boat collision ensues and 3251 essentially flips onto 4113 as main is stuck to lee.

8. Damage Or Injury

No injuries and no substantial damage.
