## 7. Description Of Incident

3055, was on port tack, and hit into my bow. When I was ailing onstarboard. We were both sailing upwind. He made no attempt to bear away or avoid the collision. I shouted starboard, and expected him to avoid the collision, however he did not and we collided. Then we both capsized, and my port side of my main foil tip was damaged and hit off. And his main foil went through my starboard tramp, we here capsized on top of each other. With his foil under his boat.

## 8. Damage Or Injury

Damage to my starboard tramp, ripped with 1 meter hole. And my port wind tip on my main foil was broken and the flap on the port side main foil was broken off where it inserted into the middle part
