7. Description Of Incident

We were identified as being over the line, however it was brought to our attention by discussing with the race committee they had conflicting views about the event in question. Also the way in which our boat was identified was only using the bow numbers. which, due to bow numbers falling off other boats we now have matching bow numbers.

The pin end boat confirmed that they could not see our boat over the Line. The race officer and his team acknowledged that they could not see our sail number. They then said they would check finishing boats bow numbers to see if any bow numbers matched, however they cannot confirm when 'similar' numbers did or did not fall off, and cannot confirm many 'potential' OCS boats as some do not have bow numbers at all.

8. Damage Or Injury
