## 7. Description Of Incident

During the start of the race I was startboard and FRA71 was on port. We was in a collision course 15-20 seconds before the start and he had plenty of time to give room. He continued on his course and when I realised he didn't change his course I had to luff to avoid the collision going in the course area. I wasn't able to avoid the collision but thanks to this manoeuvre the damages were not major damages.

## 8. Damage Or Injury

Crush on the port side and on the port transom. Attached there are three photos.
