7. Description Of Incident

Our boat and Boat Capella 2 belong to one class and have almost the same IRC measurement certificate (0,007 difference). But, Capella 2 has significantly higher speed and has better angle to wind (sails steeper to the wind). We had case in second race of regatta when Capella 2 took false start, returned back, started again and in 7 minutes overtook us only by their speed. If we have the same measurement it is not possible to have such a speed. That is why I kindly ask technical Committee to recheck (measure) this boat and sails according to IRC rules.

8. Damage Or Injury
