7. Description Of Incident

We (SUI54) were approaching the left gate on starboard tack and entered the mark room clearly ahead of SUI 3096. Because of us dropping the gennaker a bit late, they were able to catch up. They went in between the mark and us and didn't round the mark properly. They pushed us further down and caused us to capsize with their gennaker pole. They then hit our rudder and daggerboard and caused some damage to our boat.
