7. Description Of Incident

The marathon should have been scored according to the SIs, we should have been given half points regardless of whether the SIs were a mistake, they should have been followed. According to SI 8.1 the SIs must be changed a minimum of 90min before the warning signal of the race it'll take effect, this did not happen so the original SIs should have been followed as I sailed the race believing it was worth two races at half points.
