7. Description Of Incident

Second beat, coming to the second windward mark i was in 5 or 6 position, comfortably making the lay line. 10m away i had at least 5m downwind room. I started a slightly lower angle at about 8m away. The mark which was in the rib drove forward quite suddenly after 2 sailors in front of me rounded the mark. I had then to go on a much higher course to avoid collision with the rib however it carried on driving and hit me. I then fell in the water and the sail went under the rib. Eventually it floated out. I then uphauled and had to double tack to go around the mark. I also did not see mark M displayed on the boat
