7. Description Of Incident

We were on the starboard lay to the leeward mark with Chimera in front on starboard, clear ahead but above the lay line. At 15 boatlengths from the mark Joker came behind Chimera on port, broached during this manoeuvre and was moving slowly. After the broach at 10 boat lengths from the mark they then proceeded to gybe back onto starboard. Joker was still slow from the previous broach and by the time they completed the gybe we were inside overlapped with them. At 8 boat lengths from the mark they called no room but we were overlapped and were entitled to room. By 3 boat lengths we were overlapped significantly, to the primary winches on our boat. We were given no room to go around the mark, hitting the mark to avoid a large collision. Joker 2 hit our standing rigging with their boom during the mark rounding.

8. Damage Or Injury
