7. Description Of Incident

I turned the downwind mark (heading for the second leg of upwind) in 7th place. I was going upwind approaching the 5th place and the fleet split in two parts. One part took the left side of the course and the other part took the right. I was heading to the left side of the course since i wanted to take the pressure and then the weather took a 35 degrees turn. After the second upwind the weather continued to turn and at last we had a 120 degrees turn. I am asking for redress not only for the change of the wind but also because i believe its not fair for the blue group to sail with totally different conditions than the yellow.
