Race No: 4, 5 & 6.

Posted Score: 58, 60 & 58

Protest Party: O'Pen Skiff - U15 - USA 13263 - Open Skiff - Jashnani Aayan

Scoring Inquiry:

I want a readdress for the following reason:

It was a lovely day for sailing with perfect winds for my weight class. I had a major problem with my skiff. It kept filling up with water. After the first race I did my best to drain it out but was not very successful due to the short time frame between races. Every time I tacked I capsized due to the water that had filled up in my boat, on the downwind if i would go in the front my bow would dip under and if i would go at the stern I would have a stern drag and therefore I wasn't able to go fast yesterday. Post race, I needed three people to help me get my skiff out of the water as it was completely full.

Post race, we went to Tahe and they also acknowledged the issue. This morning when we visited them they confirmed a leakage from the Hull after they did a bubble test and have since confirmed that they have fixed the problem. I humbly request that the average of my first day scores be considered instead of day 2 scores. Thank you for your time and consideration.

I am hoping for a positive response from your esteemed Jury

Thank You
