Scoring Inquiry:

PROTEST REGARDING THE PROVISIONAL RESULTS - DAY 1

Boat: ESP 36360

Crew: Adrián Gregorio / Antón Dopico

To the Race Committee,

Following the publication of the **provisional results for the first day of the 2025 Vaurien World Championship**, we wish to formally submit the following protest:

According to the provisional results, **our boat is listed with two "DNC" scores**, which incorrectly implies that we did not participate in either of today's races.

However, we did in fact **start and complete both races**, as can be verified through **screenshots from the official GPS tracking system** provided by the event organization. Furthermore, there were witnesses on the water who can confirm our active participation in both races.

We believe this error may stem from a **confusion regarding our bow number**. In the provisional results, we are mistakenly listed with **bow number 10**, whereas on the day of measurement and control, prior to the start of racing, **we were reassigned bow number 93**. This change was made and recorded by the organizing team, and **was beyond our control or responsibility**. We understand this discrepancy may have caused a misidentification of our boat and led to our results not being recorded correctly.

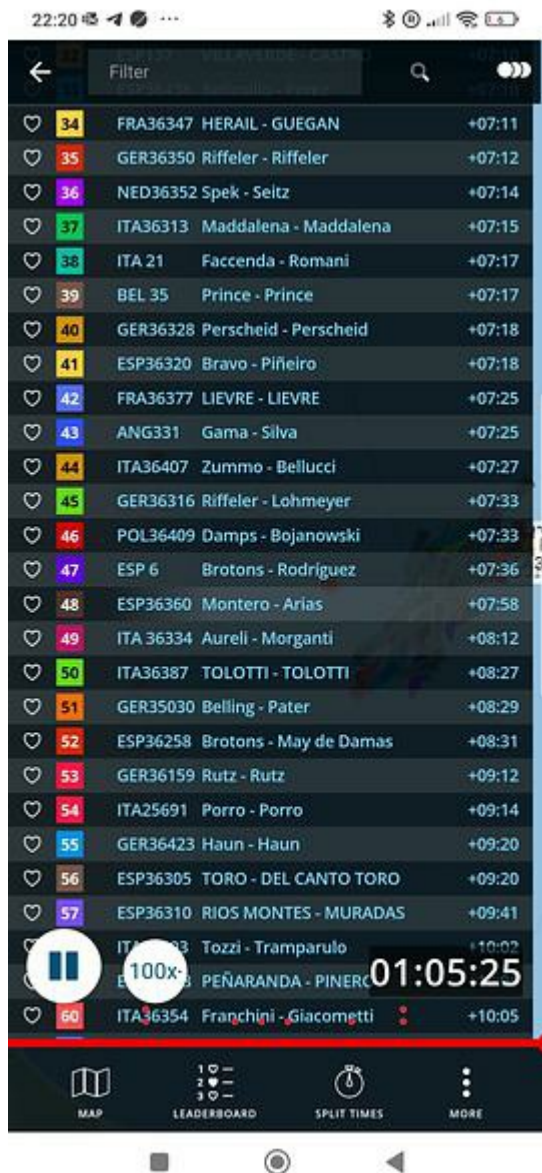

Therefore, we respectfully request that the **provisional results be reviewed**, and that our actual finishing positions in both races be duly recognized and assigned.

We appreciate your attention and cooperation in resolving this matter promptly.

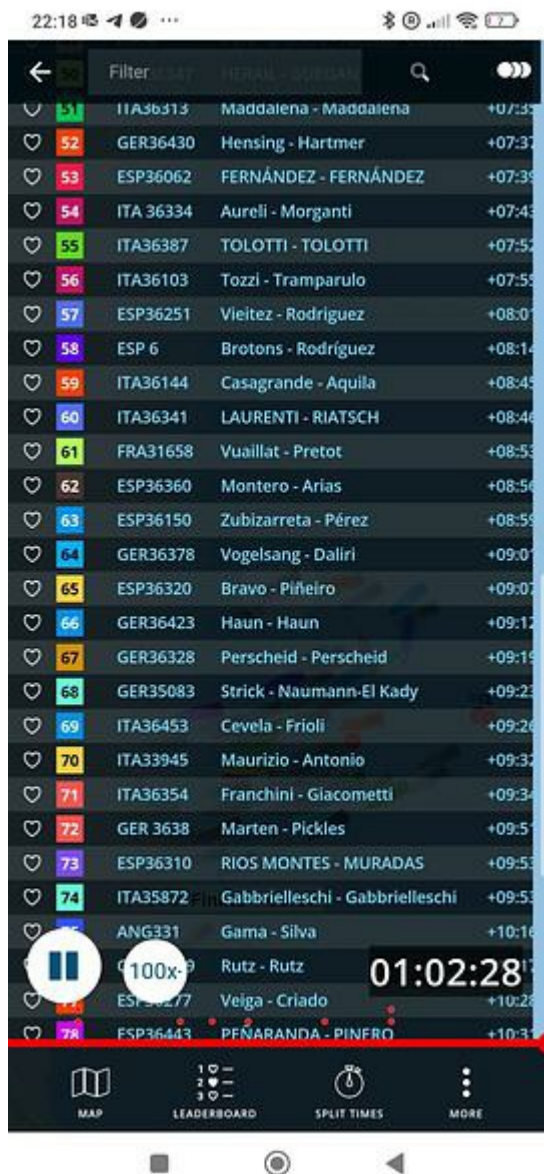

Sincerely,

Adrián Gregorio and Antón Dopico

Crew ESP 36360
