Scoring Inquiry:

In the 2nd start of the first race i was posted as BFD but after reviewing the pin end video multiple times the comitee boat is not visible and the location cannot be confirmed because of the amount of camera movement. Also in the video there is no audible count down to the start, and seeing as the start line i very long so the amount of time it takes the signal horn to reach the pin end can be anywhere from 0.5 to 1 sec i belive i was not over the line and want to request average points for that race. Also the regulation is that at the start of the video it must be announced which event the video is taken at, which day it is, which race it is and which start it is, which is not included in the video.

Witnesses:

pin end video

Response:

See Case 05.
