### Scoring Inquiry:

Provisional results for race 5 showed #12 Take Off Handicap 3rd, but this changed to Handicap 4th minutes before the presentation. Sail Media was also given handicap 1st for one of today's races but did not compete today. This has created some confusion for the competitors and it would be great to know what happened. Were handicap results recalculated? Thanks

### Response:

The results were corrected due to a data input error incorrectly listing 13ft Skiff #54 as having finished 1 hour after her correct time. Additionally 13ft Skiff #50 was incorrectly included in the provisional results. This was also then corrected.
