Scoring Inquiry:

Hello

I am not sure why we have been scored DNF in race 1 today. We were second in that race (and in the race afterwards). The finishing places for the dragons were the same in both races - Phantom first, Serafina second and Prospect third. Can you please correct this error? Many thanks, Ronan

Response:

It would appear that the second dragon to finish in the first race was racing with a sail number of 815.....
