Scoring Inquiry:

I was confused at the end of the course cause they shortened them. I did not go through the gate because I was confused and after I went past it I then knew it was the finishing line. So I went back up to the finish line and crossed it (did not lose any boats). I know that I was in front of sail number 196061 and I am sure. I hope you can change my result.

Response Title:

Boat did not complete the course properly and therefore was scored DNF. The RC Official that witnessed the finish would be happy to talk to you in the morning to explain the reasoning behind the DNF. Please ask at the CORK office or registration in the morning to see the Chief Scorer. If you are not satisfied with this outcome and explanation you can request for redress.
