Scoring Inquiry:

During the last reaching of race number 5, I clearly overtook number 15 and arrived in front of him at the finish line. We were far from each other during the whole reaching and also on the finish line.

As the finish line was orientated with an advantage at the finish line boat, I crossed just behind it and Nicolo Spanu at the downwind bouey. It made the situation clearer to me.

In my position, it was clear that I was in front.

Response Title:

15 finished ahead of 46. Scoring confirmed.
